Notes to Financial Statements

Build America Mutual Assurance Company (“BAM Mutual” or the “Company”) is a New York domiciled mutual financial guaranty insurance company licensed in all of the 50 states and the District of Columbia. The Company received its license to write financial guaranty insurance from the New York State Department of Financial Services (the “Department”) and commenced operations on July 20, 2012. BAM Mutual’s charter and underwriting guidelines permit the Company to insure only municipal bonds as defined in Section 6901(o) of the New York State Insurance Code. BAM Mutual’s financial strength and counterparty credit ratings of ‘AA/Stable Outlook’, from Standard & Poor’s Ratings Services, were reaffirmed on July 11, 2025.

The first mutual bond insurance company, BAM Mutual is owned by and operated for the benefit of the issuers that use the Company’s ‘AA/Stable Outlook’ rated financial guaranty to lower their cost of funding. BAM Mutual’s unique corporate structure distinguishes it from traditional financial guaranty insurers, as the Company’s mutual model permits capital growth to track insured portfolio growth, eliminating the need to “go public” to raise capital, to drive earnings growth to satisfy equity markets, or to engage in mission creep by taking on risks outside of the core municipal market. In addition to its own strong capital base, BAM Mutual has the benefit of collateralized first loss reinsurance protection for losses up to the first 15% of par outstanding on each policy written as well as collateralized excess of loss reinsurance (as described below).

BAM Mutual collects a payment for every policy that it issues, comprising of two components, (i) a risk premium and (ii) a Member Surplus Contribution (“MSC”) that is recognized as an addition to other than special surplus funds when collected. An issuer’s MSC is generally creditable, subject to certain conditions, to the payment due when BAM Mutual guarantees debt that refunds a debt issue insured by the Company. Issuers whose debt is insured by BAM Mutual become members of the Company for as long as they have debt outstanding insured by BAM Mutual, and as members have the right to vote and to receive dividends, if declared, and other benefits of mutual membership. The Company’s policies are issued without contingent mutual liability for assessment.

The Company benefits from both first loss and excess of loss reinsurance protection provided by HG Re, Ltd. (“HG Re”). The first loss reinsurance protection is provided via a reinsurance treaty (the “First Loss Reinsurance Treaty”), whereby HG Re assumes losses in an amount up to 15% of the par outstanding for each insurance policy. The excess of loss reinsurance treaty (the “Excess of Loss Reinsurance Treaty”) provides last dollar protection for exposures on municipal bonds insured by the Company in excess of regulatory single issuer limits, subject to an aggregate limit equal to \$125,000,000.

HG Re’s obligations under both the First Loss Reinsurance Treaty and the Excess of Loss Reinsurance Treaty are secured by and limited to the assets held in trusts which include a beneficial interest in surplus notes issued by BAM Mutual, all of which are pledged for the benefit of BAM Mutual.

In addition to the reinsurance protection provided by HG Re, BAM Mutual benefits from collateralized excess of loss reinsurance agreements with Fidus Re, Ltd. (“Fidus”), a Bermuda based special purpose insurer created solely to provide reinsurance protection to BAM Mutual. The excess of loss reinsurance provides total protection of \$575,000,000 for 90% of aggregate losses exceeding attachment points ranging from \$110,000,000 to \$190,000,000 for the covered portions of BAM Mutual’s financial guaranty portfolio and covers approximately 86% of the total gross par in force for BAM Mutual’s portfolio of financial guaranty policies as of June 30, 2025. The Company uses deposit accounting for the excess of loss reinsurance protection provided by Fidus and HG Re.

The Company became a member of the Federal Home Loan Bank of New York (“FHLB of NY”) on September 13, 2019.

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying statutory-basis financial statements have been prepared on the basis of accounting practices prescribed or permitted by the State of New York.

The Department recognizes only statutory accounting practices prescribed or permitted by the State of New York for determining and reporting the financial condition and results of operations of an insurance company for determining its solvency under New York State Insurance Law (“NYSIL”). The National Association of Insurance Commissioners (“NAIC”) Accounting Practices and Procedures manual (“NAIC SAP”) has been adopted as a component of prescribed practices by the Department.

The Department has the right to permit other specific practices that deviate from prescribed practices. During 2012, the Company received permission from the Department to defer the recognition of the deferred tax liabilities attributable to MSC received until such time as the MSC are included in the Company’s taxable income, to the extent that the total gross deferred tax liabilities exceed the total gross admitted deferred tax assets. The Company has the Department’s permission to utilize this permitted practice through December 31, 2025. The permitted practice had no effect on net income for the six months ended June 30, 2025 or June 30, 2024. The permitted practice increased surplus by \$24,986,048 and \$22,638,353 as of June 30, 2025 and December 31, 2024, respectively.

Notes to Financial Statements

- (4) No significant changes from the 2024 Notes to the Financial Statements.
- (5) No significant changes from the 2024 Notes to the Financial Statements.
- (6) Asset-backed securities with an NAIC designation of 1 or 2 are reported at amortized cost.

Changes in estimated cash flows, including the effect of prepayment assumptions, on asset-backed securities are reviewed periodically. Prepayment assumptions are applied consistently to securities backed by similar collateral. Asset-backed securities are revalued using the estimated cash flows, including new prepayment assumptions using the retrospective adjustment method. If there is an increase in expected cash flows, the Company will recalculate the amount of accretable yield. If there is a decrease in expected cash flows or if the fair value of the asset-backed security has declined below its amortized cost basis, the Company determines whether an other-than-temporary-impairment ("OTTI") has occurred.

For asset-backed securities for which the fair value has declined below its amortized cost basis and the Company either: i.) has the intent to sell the security, or ii.) does not have the intent or ability to hold security for a period of time sufficient to recover the amortized cost basis, an OTTI shall have occurred. The amount of the OTTI recognized in earnings as a realized loss will equal the entire difference between security's amortized cost basis and its fair value at the balance sheet date.

When an OTTI has occurred because the Company does not expect to recover the entire amortized cost basis of the security, even if the Company has no intent to sell and the Company has the intent and ability to hold, the amount of the OTTI recognized in earnings as a realized loss shall be equal to the difference between the security's amortized cost basis and the present value of cash flows expected to be collected.

D. Going Concern

Management has evaluated the Company's ability to continue as a going concern and does not believe there are conditions or events, considered in the aggregate, that raise substantial doubt regarding the Company's ability to continue as a going concern within one year of the issuance of the June 30, 2025 Quarterly Statement.

Notes to Financial Statements

2. Accounting Changes and Corrections of Errors

Effective January 1, 2025, the Company adopted revisions to Statutory Statement of Accounting Principle (“SSAP”) No. 26R - Bonds, SSAP No. 43R - Loan-Backed and Structured Securities, and SSAP No. 21R - Other Admitted Assets. The revisions clarified a principles-based definition of a bond as an issuer credit obligation, and established principles for classifying structured securities and other asset-backed investments. Under SSAP 26R, investments that do not qualify as bonds are required to be reclassified to Other Invested Assets.

The Company’s adoption of the revisions did not result in the reclassification of any bonds from Schedule D-1 to Other Invested Assets or transition adjustments to previously reported Schedule D-1 assets.

3. Business Combinations and Goodwill

The Series 2018 Surplus Notes the (“Surplus Notes”) are held in an HG Re sponsored trust for the benefit of BAM Mutual.

The Surplus Notes have scheduled semi-annual payments on every June 1 and December 1, until all amounts due on the Surplus Notes have been paid, upon: (i) the Company's request for authority to make payment and (ii) the Department's approval of that request. These conditions to the payment of interest due on Surplus Notes allow for the deferral of interest without the occurrence of a default. Interest does not accrue on deferred interest payments.

As funds become available, they will be used to make payments of outstanding principal plus any accrued interest thereon. All payments in respect of accrued interest shall be paid to the holders of the rights to receive such interest in proportion to their rights as of the date of any such payment. The Company may not make any payment of principal on any debt subordinated to the Surplus Notes until all interest due and all outstanding principal on the Surplus Notes has been paid.

The Surplus Notes are expressly subordinate and junior to the Company's policy obligations and all other liabilities other than distribution of assets to members. Because the Company is a mutual company, there is no liquidation preference for the insurer's common and preferred shareholders, as no such shares exist.

While the scheduled maturity date of the Surplus Notes is April 1, 2042, the Company has the option to pre-pay, in whole or in part, the principal amount of the Surplus Notes at par value prior to such date subject to Department approval and the conditions noted in the previous paragraphs.

Notes to Financial Statements

For the six months ended June 30, 2025, the annual rate on the Surplus Notes was 10.0%. For the period from January 1, 2024 to June 30, 2024, the annual interest rate of the Surplus Notes was 8.20%. Effective July 1, 2024, the terms of the Surplus Notes were modified such that the annual rate on the Surplus Notes was fixed at 10.0%.

The Company did not make any Surplus Note payments during the six months ended June 30, 2025. During the six months ended June 30, 2024, the Company made total Surplus Note payments totaling \$8,000,000, consisting of \$5,091,650 of principal and \$2,908,350 of interest.

20. Fair Value Measurements

- A. The fair values of the Company's financial instruments are determined primarily through the use of observable inputs. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from external independent sources. Unobservable inputs reflect management's assumptions about what market participants' assumptions would be in pricing the asset or liability based on the best information available. The Company classifies financial assets in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement. This classification requires judgment in assessing the market and pricing methodologies for a particular security. The fair value hierarchy is comprised of the following three levels:

Level 1: Valuations are based on unadjusted quoted prices in active markets for identical financial assets or liabilities;

Level 2: Valuations of financial assets and liabilities are based on prices obtained from independent index providers, pricing vendors or broker-dealers using observable inputs; and

Level 3: Valuations are based on unobservable inputs for assets and liabilities where there is little or no market activity. Management's assumptions and/or internal valuation pricing models are used to determine the fair value of financial assets or liabilities.

Notes to Financial Statements

(1) Assets carried at fair value as of June 30, 2025 are as follows:

	Level 1	Level 2	Level 3	Net Asset Value	Total
a. Assets at fair value					
Common Stock					
Industrial and Misc	\$ -	\$ -	\$ 128,200	\$ -	\$ 128,200
Total assets at fair value	\$ -	\$ -	\$ 128,200	\$ -	\$ 128,200

There were no liabilities carried at fair value as of June 30, 2025 or December 31, 2024.

(2) During the six months ended June 30, 2025, the Company purchased \$1,800 of FHLB NY capital stock that was classified as Level 3. During the six months ended June 30, 2024, the Company purchased \$9,800 of FHLB NY capital stock that was classified as Level 3.

The estimated fair value of the liability for net financial guaranty insurance contracts as of June 30, 2025 and December 31, 2024 was \$503,028,372 and \$459,145,189 respectively.

(3) Transfers of assets and liabilities into or out of Level 3 are reflected at their fair values as of the end of each reporting period, consistent with the date of determination of fair value.

(4) The following inputs, methods and assumptions were used to determine the fair value of each class of financial instrument for which it is practicable to estimate that value:

Bonds

The estimated fair values generally represent prices received from third party pricing services or alternative pricing sources. The pricing services prepare estimates of fair value measurements using their pricing applications, which include available relevant market information, benchmark curves, benchmarking of like securities and matrix pricing. The observable inputs used in the valuation of these securities may include the spread above the risk-free yield curve, reported trades, broker-dealer quotes, bids, prepayment speeds, delinquencies, loss severity and default rates. In cases where specific market quotes are unavailable, interpreting market data and estimating market values require considerable judgment by management. Accordingly, the estimates presented are not necessarily indicative of the amount the Company could realize in the market. In these cases, the fair value measurements are primarily classified as Level 2.

Common Stocks

The Company's common stock investments relate to holdings in the FHLB of NY. FHLB of NY's capital plan prescribes the par value of the capital stock is \$100 and all capital stock is issued, redeemed, repurchased or transferred at par value. Since there is not an observable market for the FHLB of NY common stock, it has been classified as Level 3. The fair value of the FHLB of NY's common stock is presumed to equal par as prescribed by SSAP 30R, *Unaffiliated Common Stock*. During the six months ended June 30, 2025, the Company purchased \$1,800 of FHLB NY capital stock that was classified as Level 3. The fair value of FHLB of NY stock was \$128,200 and \$126,400 as of June 30, 2025 and December 31, 2024, respectively.

Cash and Short-Term Investments

The fair value of cash and short-term investments approximates its amortized cost. The fair value measurements were classified as Level 1.

Investment Income Due and Accrued

The fair value of investment income due and accrued approximates carrying value, and the fair value measurements were classified as Level 1.

Net Financial Guaranty Insurance Contracts

The fair value of net financial guaranty insurance contracts represents the Company's estimate of the cost to BAM Mutual to completely transfer its insurance obligations to another financial guarantor under current market conditions. Theoretically, this amount should be the same amount that another financial guarantor would hypothetically charge in the market place to provide the same protection as of the balance sheet date. The cost to transfer these insurance obligations is based on pricing assumptions observed in the financial guaranty market and includes adjustments to the carrying value of unearned premium reserves, member surplus contributions and ceding commissions. The significant inputs are not observable. The Company accordingly classified this fair value measurement as Level 3.

(5) The Company did not hold any derivative assets or liabilities as of June 30, 2025 or December 31, 2024.

B. The fair values of the Company's financial instruments are reflected in the table in footnote 20(C).

22. Events Subsequent

Pursuant to Statement of Statutory Accounting Principles (“SSAP”) No. 9, Subsequent Events, the date through which Type I or Type II subsequent events have been evaluated was August 12, 2025, the date upon which the statutory financial statements were available for issue. On August 5, 2025, the Company received approval from the Department to make a Surplus Note payment of \$8.0 million. On August 6, 2025, the Company made a payment of \$8.0 million, consisting of \$5.6 million of principal and \$3.4 million of interest. As both the approval and payment occurred after June 30, 2025, and neither related to conditions that existed as of that date, these events are considered Type II subsequent events for which the June 30, 2025 Quarterly Statement has not been adjusted. The \$8.0 million payment and related reduction to Surplus as regards policyholders will be recognized in the September 30, 2025 Quarterly Statement.

- (3) The Company did not have any claim liabilities for financial guaranty insurance contracts inforce as of June 30, 2025 or December 31, 2024.
- (4) Insured obligations are monitored periodically with the objective of identifying emerging trends, updating the external and internal ratings and surveillance categories and avoiding or minimizing losses. The Company classifies each credit in its insured portfolio using the following surveillance categories:

I – Performing – Standard Oversight
Credit is performing well. No losses are expected.

II – Performing – Enhanced Oversight
Credit experiencing financial, legal, or administrative problems, causing overall credit quality deterioration or a breach of one or more covenants or triggers. Issuers in this category are, to the extent possible, taking all necessary remedial actions. For some issuers, factors outside of their control are the cause, at least in part, of the deterioration in their credit profile. Issuers in this category are more closely monitored by Surveillance. Despite the current credit difficulties, BAM Mutual does not expect any interruption of debt service payments and no losses are expected.

III – Watchlist – Deteriorated
Credit experiencing financial, legal, or administrative problems, causing overall credit quality deterioration or a breach of one or more covenants or triggers, which if not corrected could lead to a loss on the policy. Issuers in this category are not taking conclusive remedial action or are unable to do so due to external factors, requiring Surveillance to employ enhanced surveillance and loss mitigation procedures. This may include the development of a remediation plan in consultation with internal and/or external attorneys, and/or outside consultants. The objectives of any remediation plan would be to address the problems the issuer is facing and any external factors impacting the credit, as well as ensuring that creditor's rights are enforced and curing any breaches that may have occurred with respect to any credit triggers or covenants. BAM Mutual may work with other insurers, bondholders, and/or interested parties on remediation efforts, as applicable. Probability of a loss is remote.

IV – Watchlist – Distressed
A loss is expected or losses have been paid and have not been recovered or are not recoverable. Surveillance is employing enhanced surveillance and loss mitigation procedures and may include a remediation plan developed in consultation internal and/or external attorneys, and/or outside consultants. Probability of a loss is elevated.

The Company has two credits that have been assigned to category "III - Watchlist – Deteriorated" for which it does not expect any losses. All remaining credits are deemed Performing and have been assigned to either category "I – Performing – Standard Oversight" or "II – Performing – Enhanced Oversight." The Company did not have any loss or loss adjustment expense reserves as of June 30, 2025. However, because the reserves are based on management's judgment and estimates, there can be no assurance that the Company will not incur loss or loss adjustment expenses in future periods.

- B. The Company has no gross claim liabilities or potential recoveries as of June 30, 2025 or December 31, 2024.
