Notes to Financial Statements

Build America Mutual Assurance Company (“BAM Mutual” or the “Company”) is a New York domiciled mutual financial guaranty insurance company licensed in all of the 50 states and the District of Columbia. The Company commenced operations on July 20, 2012 and became a member of the Federal Home Loan Bank of New York (“FHLB of NY”) on September 13, 2019. The first mutual bond insurance company, BAM Mutual’s charter and underwriting guidelines permit the Company to insure only municipal bonds as defined in Section 6901(o) of the New York State Insurance Code. The Company’s policies are issued without contingent mutual liability for assessment. BAM Mutual’s financial strength and counterparty credit ratings of ‘AA/Stable Outlook’, from S&P Global Ratings, were reaffirmed on August 4, 2026.

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying statutory-basis financial statements have been prepared on the basis of accounting practices prescribed or permitted by the State of New York.

The New York State Department of Financial Services (the “Department”) recognizes only statutory accounting practices prescribed or permitted by the State of New York for determining and reporting the financial condition and results of operations of an insurance company for determining its solvency under New York State Insurance Law (“NYSIL”). The National Association of Insurance Commissioners (“NAIC”) Accounting Practices and Procedures manual (“NAIC SAP”) has been adopted as a component of prescribed practices by the Department.

The Company is required to establish and maintain a mandatory contingency reserve liability in accordance with statutory accounting practices prescribed or permitted by the State of New York under NYSIL in order to protect policyholders against the effects of excessive losses occurring during adverse economic cycles. Pursuant to NYSIL, the Company records and maintains a mandatory contingency reserve liability net of collateral. This prescribed practice differs from NAIC SAP, which does not explicitly allow for a reduction to the mandatory contingency reserve liability for collateral. The prescribed practice had no effect on net income for the six months ended June 30, 2026 or June 30, 2025 or on surplus as of June 30, 2026 or December 31, 2025.

The Department has the right to permit other specific practices that deviate from prescribed practices. During 2012, the Company received permission from the Department to defer the recognition of the deferred tax liabilities attributable to Member Surplus Contributions (“MSC”) received until such time as the MSC are included in the Company’s taxable income, to the extent that the total gross deferred tax liabilities exceed the total gross admitted deferred tax assets. The Company has the Department’s permission to utilize this permitted practice through December 31, 2026. The permitted practice had no effect on net income for the six months ended June 30, 2026 or June 30, 2025. The permitted practice increased surplus by \$29,038,092 and \$28,850,611 as of June 30, 2026 and December 31, 2025, respectively.

A reconciliation of the Company’s net income and capital and surplus between NAIC SAP and practices prescribed or permitted by the Department is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

No significant changes from the 2025 Notes to the Financial Statements.

C. Accounting Policies

- (1) No significant changes from the 2025 Notes to the Financial Statements.
- (2) Investments in long-term bonds that are issuer credit obligations with an NAIC designation of 1 or 2 are reported at amortized cost; amortized cost is computed using the effective interest method. Issuer credit obligations with an NAIC designation of 3 through 6 are carried at the lower of amortized cost or fair value. For bonds purchased at a price below par value, discounts are accreted over the remaining term of the bond. For bonds purchased at a price above par value, premiums are amortized to the call date that produces the lowest yield, or, if there are no call features, premiums are amortized over the remaining term of the bond.

- (4) No significant changes from the 2025 Notes to the Financial Statements.
- (5) No significant changes from the 2025 Notes to the Financial Statements.
- (6) Asset-backed securities with an NAIC designation of 1 or 2 are reported at amortized cost. Changes in estimated cash flows, including the effect of prepayment assumptions, on asset-backed securities are reviewed periodically. Prepayment assumptions are applied consistently to securities backed by similar collateral. Asset-backed securities are revalued using the estimated cash flows, including new prepayment assumptions using the retrospective adjustment method. If there is an increase in expected cash flows, the Company will recalculate the amount of accretable yield. If there is a decrease in expected cash flows or if the fair value of the asset-backed security has declined below its amortized cost basis, the Company determines whether an other-than-temporary-impairment (“OTTI”) has occurred.

For asset-backed securities for which the fair value has declined below its amortized cost basis and the Company either: i.) has the intent to sell the security, or ii.) does not have the intent or ability to hold security for a period of time sufficient to recover the amortized cost basis, an OTTI shall have occurred. The amount of the OTTI recognized in earnings as a realized loss will equal the entire difference between security’s amortized cost basis and its fair value at the balance sheet date.

When an OTTI has occurred because the Company does not expect to recover the entire amortized cost basis of the security, even if the Company has no intent to sell and the Company has the intent and ability to hold, the amount of the OTTI recognized in earnings as a realized loss shall be equal to the difference between the security’s amortized cost basis and the present value of cash flows expected to be collected.

D. Asset-backed Securities

- (1) The Company consistently uses the retrospective method to revalue asset-backed securities using current prepayment assumptions. Prepayment assumptions for single class and multi-class asset-backed securities are obtained from publicly available resources. There were no changes in the methodology utilized by the Company to revalue asset-backed securities.
- (2) No significant changes from the 2025 Notes to the Financial Statements.
- (3) No significant changes from the 2025 Notes to the Financial Statements.
- (4) The Company has not recognized OTTI losses on asset-backed securities for the six months ended June 30, 2026 or the year ended December 31, 2025. Gross unrealized losses on asset-backed securities and the related fair values were as follows:

Time in Continuous Unrealized Loss Position	Gross Unrealized Losses	Fair Value	Number of Securities
<u>As of June 30, 2026:</u>

The Series 2018 Surplus Notes the (“Surplus Notes”) are held in an HG Re sponsored trust for the benefit of BAM Mutual.

The Surplus Notes have scheduled semi-annual payments on every June 1 and December 1, until all amounts due on the Surplus Notes have been paid, upon: (i) the Company's request for authority to make payment and (ii) the Department's approval of that request. These conditions to the payment of interest due on Surplus Notes allow for the deferral of interest without the occurrence of a default. Interest does not accrue on deferred interest payments.

As funds become available, they will be used to make payments of outstanding principal plus any accrued interest thereon. All payments in respect of accrued interest shall be paid to the holders of the rights to receive such interest in proportion to their rights as of the date of any such payment. The Company may not make any payment of principal on any debt subordinated to the Surplus Notes until all interest due and all outstanding principal on the Surplus Notes has been paid.

The Surplus Notes are expressly subordinate and junior to the Company's policy obligations and all other liabilities other than distribution of assets to members. Because the Company is a mutual company, there is no liquidation preference for the insurer's common and preferred shareholders, as no such shares exist.

While the scheduled maturity date of the Surplus Notes is April 1, 2042, the Company has the option to pre-pay, in whole or in part, the principal amount of the Surplus Notes at par value prior to such date subject to Department approval and the conditions noted in the previous paragraphs.

For the six months ended June 30, 2026 and June 30, 2025 the annual rate on the Surplus Notes was 10.0%.

Notes to Financial Statements

On June 30, 2026, the Company accrued an approved Surplus Note payment of \$2,800,000, consisting of \$1,859,840 of principal and \$940,160 of interest.

20. Fair Value Measurements

- A. The fair values of the Company’s financial instruments are determined primarily through the use of observable inputs. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from external independent sources. Unobservable inputs reflect management’s assumptions about what market participants’ assumptions would be in pricing the asset or liability based on the best information available. The Company classifies financial assets in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement. This classification requires judgment in assessing the market and pricing methodologies for a particular security. The fair value hierarchy is comprised of the following three levels:

Level 1: Valuations are based on unadjusted quoted prices in active markets for identical financial assets or liabilities;

Level 2: Valuations of financial assets and liabilities are based on prices obtained from independent index providers, pricing vendors or broker-dealers using observable inputs; and

Level 3: Valuations are based on unobservable inputs for assets and liabilities where there is little or no market activity. Management’s assumptions and/or internal valuation pricing models are used to determine the fair value of financial assets or liabilities.

- (1) Assets carried at fair value as of June 30, 2026 are as follows:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Net Asset Value</u>	<u>Total</u>
a. Assets at fair value

There were no liabilities carried at fair value as of June 30, 2026 or December 31, 2025.

- (2) During the six months ended June 30, 2026, the Company disposed of \$2,500 of FHLB NY capital stock that was classified as Level 3. During the six months ended June 30, 2025, the Company purchased \$1,800 of FHLB NY capital stock that was classified as Level 3.
- (3) The estimated fair value of the liability for net financial guaranty insurance contracts as of June 30, 2026 and December 31, 2025 was \$532,894,133 and \$525,424,353 respectively.
- (4) Transfers of assets and liabilities into or out of Level 3 are reflected at their fair values as of the end of each reporting period, consistent with the date of determination of fair value.
- (5) The following inputs, methods and assumptions were used to determine the fair value of each class of financial instrument for which it is practicable to estimate that value:

Notes to Financial Statements

Bonds

The estimated fair values generally represent prices received from third party pricing services or alternative pricing sources. The pricing services prepare estimates of fair value measurements using their pricing applications, which include available relevant market information, benchmark curves, benchmarking of like securities and matrix pricing. The observable inputs used in the valuation of these securities may include the spread above the risk-free yield curve, reported trades, broker-dealer quotes, bids, prepayment speeds, delinquencies, loss severity and default rates. In cases where specific market quotes are unavailable, interpreting market data and estimating market values require considerable judgment by management. Accordingly, the estimates presented are not necessarily indicative of the amount the Company could realize in the market. In these cases, the fair value measurements are primarily classified as Level 2.

Common Stocks

The Company's common stock investments relate to holdings in the FHLB of NY. FHLB of NY's capital plan prescribes the par value of the capital stock is \$100 and all capital stock is issued, redeemed, repurchased or transferred at par value. Since there is not an observable market for the FHLB of NY common stock, it has been classified as Level 3. The fair value of the FHLB of NY's common stock is presumed to equal par as prescribed by SSAP 30, *Unaffiliated Common Stock*. During the six months ended June 30, 2026, the Company disposed of \$2,500 of FHLB NY capital stock that was classified as Level 3. The fair value of FHLB of NY stock was \$125,700 and \$128,200 as of June 30, 2026 and December 31, 2025, respectively

Cash and Short-Term Investments

The fair value of cash and short-term investments approximates its amortized cost. The fair value measurements were classified as Level 1.

Investment Income Due and Accrued

The fair value of investment income due and accrued approximates carrying value, and the fair value measurements were classified as Level 1.

Net Financial Guaranty Insurance Contracts

The fair value of net financial guaranty insurance contracts represents the Company's estimate of the cost to completely transfer its insurance obligations to another financial guarantor under current market conditions. Theoretically, this amount should be the same amount that another financial guarantor would hypothetically charge in the market place to provide the same protection as of the balance sheet date. The cost to transfer these insurance obligations is based on pricing assumptions observed in the financial guaranty market and includes adjustments to the carrying value of unearned premium reserves, member surplus contributions and ceding commissions. The significant inputs are not observable. The Company accordingly classified this fair value measurement as Level 3.

(6) The Company did not hold any derivative assets or liabilities as of June 30, 2026 or December 31, 2025.

23. Reinsurance

- A. No significant changes from the 2025 Notes to the Financial Statements.
- B. No significant changes from the 2025 Notes to the Financial Statements.
- C. Reinsurance Assumed and Ceded

The Company benefits from first loss reinsurance protection provided by HG Re, Ltd. (“HG Re”). The first loss reinsurance protection is provided via a reinsurance treaty (the “First Loss Reinsurance Treaty”) whereby HG Re assumes 100% of losses in an amount up to 15% of the par outstanding for each insurance policy.

HG Re’s obligations under the First Loss Reinsurance Treaty are secured by and limited to the assets held in trusts which include a beneficial interest in surplus notes issued by BAM Mutual, all of which are pledged for the benefit of BAM Mutual.
