Build America Mutual Assurance Company ("Build America" or the "Company") is a New York domiciled mutual financial guaranty insurance company. The Company was capitalized on July 17, 2012 and received its license to write financial guaranty insurance from the New York State Department of Financial Services (the "Department") and commenced operations on July 20, 2012. Build America is also licensed in the District of Columbia and the remaining 49 states. Build America's financial strength and counterparty credit ratings of 'AA/Stable Outlook', from Standard & Poor's Ratings Services, were reaffirmed on June 16, 2022. Build America is not licensed to write financial guaranty insurance in Puerto Rico or any other territory or possession of the United States, and it has no exposure to debt issued in Puerto Rico or any other territory or possession of the United States.

The first mutual bond insurance company, Build America is owned by and operated for the benefit of the cities, states and other municipal agencies — the municipal issuers — that use the Company's 'AA/Stable Outlook' rated financial guaranty to lower their cost of funding in the U.S. municipal market. Build America's unique corporate structure distinguishes it from traditional financial guaranty insurers in many important ways:

- Build America's charter, underwriting guidelines and credit policies permit the Company to insure only long-term, essential public purpose municipal bonds in core sectors for municipalities or entities that otherwise qualify for tax exemption under Section 115 of the Internal Revenue Code;
- Build America's mutual model permits capital growth to track insured portfolio growth, eliminating the need to "go
 public" to raise capital, to drive earnings growth to satisfy equity markets, or to engage in mission creep by taking
 on risks outside of the core municipal market; and
- In addition to its own strong capital base, Build America has the benefit of collateralized first loss reinsurance
 protection for losses up to the first 15% of par outstanding on each policy written as well as collateralized excess
 of loss reinsurance.

Build America collects a payment for every policy that it issues, comprising i.) a risk premium and ii.) a Member Surplus Contribution ("MSC") that is recognized as an addition to other than special surplus funds when collected. An issuer's MSC is creditable to the payment due when Build America guarantees debt that refunds a debt issue insured by the Company. Issuers whose debt is insured by Build America become members of the Company for as long as they have debt outstanding insured by Build America, and as members have the right to vote and to receive dividends, if declared, and other benefits of mutual membership. The Company's policies are issued without contingent mutual liability for assessment.

The Company benefits from both first loss and excess of loss reinsurance protection provided by HG Re, Ltd. ("HG Re"), The first loss reinsurance protection is provided via a reinsurance treaty (the "First Loss Reinsurance Treaty"), whereby HG Re assumes losses in an amount up to 15% of the par outstanding for each insurance policy. The excess of loss reinsurance treaty (the "Excess of Loss Reinsurance Treaty") provides last dollar protection for exposures on municipal bonds insured by the Company in excess of regulatory single issuer limits, subject to an aggregate limit equal to \$125 million.

HG Re's obligations under both the First Loss Reinsurance Treaty and the Excess of Loss Reinsurance Treaty are secured by, and limited to the value of the assets held in trusts, which include a beneficial interest in the Series 2018 Surplus Notes as well as other high quality assets, which are pledged for the benefit of Build America.

In addition to the reinsurance protection provided by HG Re, BAM is party to two collateralized excess of loss reinsurance agreements with Fidus Re, Ltd. ("Fidus"), a Bermuda based special purpose insurer created solely to provide reinsurance protection to BAM. The Fidus 2018 reinsurance agreement provides prospective reinsurance for 90% of aggregate losses exceeding \$165,000,000 on a portion of BAM's financial guarantee portfolio (the "Fidus 2018 Covered Portfolio") up to a total reimbursement of \$100,000,000. The Fidus 2018 Covered Portfolio consists of approximately 28% of the total gross par in force for BAM's portfolio of financial guaranty policies as of September 30, 2022. The Fidus 2021 reinsurance agreement provides prospective reinsurance for 90% of aggregate losses exceeding \$135,000,000 on a portion of BAM's financial guarantee portfolio (the "Fidus 2021 Covered Portfolio") up to a total reimbursement of \$150,000,000. The Fidus 2021 Covered Portfolio consists of approximately 33% of the total gross par in force for BAM's portfolio of financial guaranty policies as of September 30, 2022. The Company uses deposit accounting for the excess of loss reinsurance protection provided by Fidus and HG Re.

The Company became a member of the Federal Home Loan Bank of New York ("FHLB of NY") on September 13, 2019.

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying statutory-basis financial statements have been prepared on the basis of accounting practices prescribed or permitted by the State of New York.

The Department recognizes only statutory accounting practices prescribed or permitted by the State of New York for determining and reporting the financial condition and results of operations of an insurance company for determining its solvency under New York State Insurance Law ("NYSIL"). The National Association of Insurance Commissioners ("NAIC") Accounting Practices and Procedures manual ("NAIC SAP") has been adopted as a component of prescribed practices by the Department.

The Department has the right to permit other specific practices that deviate from prescribed practices. During 2012, the Company received permission from the Department to defer the recognition of the deferred tax liabilities attributable to MSC received until such time as the MSC are included in the Company's taxable income, to the extent that the total gross deferred tax liabilities exceed the total gross admitted deferred tax assets. The Company has the Department's permission to utilize this permitted practice through December 31, 2022. The permitted practice had no effect on net income for the nine months ended September 30, 2022 or September 30, 2021. The permitted practice increased surplus by \$14,872,104 and \$8,548,974 as of September 30, 2022 and December 31, 2021, respectively.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices permitted by the Department is shown below:

- (4) No significant changes from the 2021 Notes to the Financial Statements.
- (5) No significant changes from the 2021 Notes to the Financial Statements.
- (6) Loan-backed securities with an NAIC designation of 1 or 2 are reported at amortized cost.

Changes in estimated cash flows, including the effect of prepayment assumptions, on loan-backed securities are reviewed periodically. Prepayment assumptions are applied consistently to securities backed by similar collateral. Loan-backed securities are revalued using the estimated cash flows, including new prepayment assumptions using the retrospective adjustment method. If there is an increase in expected cash flows, the Company will recalculate the amount of accretable yield. If there is a decrease in expected cash flows or if the fair value of the loan-backed security has declined below its amortized cost basis, the Company determines whether an other-than-temporary-impairment ("OTTI") has occurred.

For loan-backed securities for which the fair value has declined below its amortized cost basis and the Company either: i.) has the intent to sell the security, or ii.) does not have the intent or ability to hold security for a period of time sufficient to recover the amortized cost basis, an OTTI shall have occurred. The amount of the OTTI recognized in earnings as a realized loss will equal the entire difference between security's amortized cost basis and its fair value at the balance sheet date.

When an OTTI has occurred because the Company does not expect to recover the entire amortized cost basis of the security, even if the Company has no intent to sell and the Company has the intent and ability to hold, the amount of the OTTI recognized in earnings as a realized loss shall be equal to the difference between the security's amortized cost basis and the present value of cash flows expected to be collected.

- B. No significant changes from the 2021 Notes to the Financial Statements.
- C. No significant changes from the 2021 Notes to the Financial Statements.
- D. Loan-Backed Securities
 - (1) Company consistently uses the retrospective method to revalue loan-backed securities using current prepayment assumptions. Prepayment assumptions for single class and multi-class loan-backed securities are obtained from publicly available resources. There were no changes in the methodology utilized by the Company to revalue loan-backed securities.
 - (2) No significant changes from the 2021 Notes to the Financial Statements.
 - (3) No significant changes from the 2021 Notes to the Financial Statements.
 - (4) The Company has not recognized OTTI losses on loan-backed securities for the nine months ended September 30, 2022 or the year ended December 31, 2021. Gross unrealized losses on loan-backed securities and the related fair values were as follows:

On July 17, 2012, the Company issued, for cash, the Series 2012-A Surplus Notes and Series 2012-B Surplus Notes (collectively, the "Series 2012 Surplus Notes") to HG Holdings, Ltd. ("HG Holdings"), a Bermuda holding company, and its wholly owned subsidiary HG Re, in the amount of \$203,000,000 and \$300,000,000, respectively. During 2017, in order to further support BAM's long-term capital position and business prospects, HG Holdings contributed the \$203,000,000 Series 2012-A Surplus Notes to HG Re. HG Re subsequently surrendered the Series 2012-A and Series 2012-B Surplus Notes, and the Company issued surplus notes in the amount of \$503,000,000 (the "Series 2017 Surplus Notes") to HG Re in order to consolidate the Series 2012 Surplus Notes into a single series. In 2018, the Series 2017 Surplus Notes were exchanged for Series 2018 Surplus Notes, which mature on April 1, 2042, and reflect all of the unapproved interest from the Series 2017 Surplus Notes.

The Series 2018 Surplus Notes are held in an HG Re sponsored vehicle. HG Re's beneficial interest in the Series 2018 Surplus Notes is pledged for the benefit of Build America. The interest rate on the Series 2018 Surplus Notes is a variable rate equal to the one-year U.S. treasury rate plus 300 basis points. During 2018, Build America exercised its option to extend the variable rate period on the Series 2018 Surplus Notes for three years to December 31, 2021. In January 2020, the expiration on the variable rate interest period was extended from December 31, 2021 to December 31, 2024. Following the expiration of the variable rate period, the interest rate adjusts to the higher of the then variable rate or 8%. The Series 2018 Surplus Notes interest rate was 3.21% and 3.11% for the nine months ended September 30, 2022 and September 30, 2021, respectively.

The Second Amended and Restated Surplus Note Purchase Agreement (the "Second Amended Surplus Note Agreement") provides for quarterly payments on every March 1, September 1, September 1, and December 1, until all amounts due on the Series 2018 Surplus Notes have been paid, upon: i.) the

Company's request for authority to make payment and ii.) the Department's approval of that request. These conditions to the payment of interest due on the Series 2018 Surplus Notes allow for the deferral of interest without the occurrence of a default under the Second Amended Surplus Note Agreement. No interest shall be accrued on deferred interest payments.

As funds become available, they will be used on each payment date to make payments of outstanding principal of the Series 2018 Surplus Notes, plus any accrued interest thereon. All payments in respect of accrued interest on the Series 2018 Surplus Notes shall be paid to the holders of the rights to receive such interest pro rata in proportion to their rights as of the date of any such payment. The Company may not make any payment of principal on any debt subordinated to the Series 2018 Surplus Notes until all interest due and all outstanding principal on all of the Series 2018 Surplus Notes has been paid.

The Series 2018 Surplus Notes are expressly subordinate and junior to the Company's policy obligations and all other liabilities other than distribution of assets to members. Because the Company is a mutual company, there is no liquidation preference for the insurer's common and preferred shareholders, as no such shares exist.

While the scheduled maturity date of the Series 2018 Surplus Notes is April 1, 2042, the Company has the option to pre-pay, in whole or in part, the principal amount of the Series 2018 Surplus Notes at par value prior to such date subject to Department approval and the conditions noted in the previous paragraphs.

20. Fair Value Measurements

A. The fair values of the Company's financial instruments are determined primarily through the use of observable inputs. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from external independent sources. Unobservable inputs reflect management's assumptions about what market participants' assumptions would be in pricing the asset or liability based on the best information available. The Company classifies financial assets in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement. This classification requires judgment in assessing the market and pricing methodologies for a particular security. The fair value hierarchy is comprised of the following three levels:

Level 1: Valuations are based on unadjusted quoted prices in active markets for identical financial assets or liabilities:

Level 2: Valuations of financial assets and liabilities are based on prices obtained from independent index providers, pricing vendors or broker-dealers using observable inputs; and

Level 3: Valuations are based on unobservable inputs for assets and liabilities where there is little or no market activity. Management's assumptions and/or internal valuation pricing models are used to determine the fair value of financial assets or liabilities.

(1) Assets carried at fair value as of September 30, 2022 are as follows:

| | Level 1 | Level | 2 | Level 3 | Net Ass | et Value | <u>Total</u> |
|----------------------------|---------|-------|------|---------|---------|----------|--------------|
| a. Assets at fair value | | | | | | | |
| Common Stock | | | | | | | |
| Industrial and Misc | \$ | - \$ | - \$ | 112,000 | \$ | | 112,000 |
| Total assets at fair value | \$ | - \$ | - \$ | 112,000 | \$ | 9 | 112,000 |

There were no liabilities carried as of fair value as of September 30, 2022 or December 31, 2021.

(2) During the nine months ended September 30, 2022, the Company purchased \$20,000 of FHLB NY capital stock that was classified as Level 3. During the nine months ended September 30, 2021, the Company purchased \$2,000 of FHLB NY capital stock that was classified as Level 3.

The estimated fair value of the liability for net financial guaranty insurance contracts as of September 30, 2022 and December 31, 2021 was \$348,891,723 and \$317,728,920 respectively.

- (3) Transfers of assets and liabilities into or out of Level 3 are reflected at their fair values as of the end of each reporting period, consistent with the date of determination of fair value.
- (4) The following inputs, methods and assumptions were used to determine the fair value of each class of financial instrument for which it is practicable to estimate that value:

Bonds

The estimated fair values generally represent prices received from third party pricing services or alternative pricing sources. The pricing services prepare estimates of fair value measurements using their pricing applications, which include available relevant market information, benchmark curves, benchmarking of like securities and matrix pricing. The observable inputs used in the valuation of these securities may include the spread above the risk-fee yield curve, reported trades, broker-dealer quotes, bids, prepayment speeds, delinquencies, loss severity and default rates. In cases where specific market quotes are unavailable, interpreting market data and estimating market values require considerable judgment by management. Accordingly, the estimates presented are not necessarily indicative of the amount the Company could realize in the market. In these cases, the fair value measurements are primarily classified as Level 2.

Common Stocks

The Company's common stock investments relate to holdings in the FHLB of NY. FHLB of NY's capital plan prescribes the par value of the capital stock is \$100 and all capital stock is issued, redeemed, repurchased or transferred at par value. Since there is not an observable market for the FHLB of NY common stock, it has been classified as Level 3. The fair value of the FHLB of NY's common stock is presumed to equal par as prescribed by SSAP 30R, *Unaffiliated Common Stock*. During the nine months ended September 30, 2022, the Company purchased 200 shares of FHLB of NY capital stock with a par value of \$20,000. The fair value of FHLB of NY stock was \$112,000 and \$92,000 as of September 30, 2022 and December 31, 2021, respectively.

Cash and Short-Term Investments

The fair value of cash and short-term investments approximates its amortized cost. The fair value measurements were classified as Level 1.

Investment Income Due and Accrued

The fair value of investment income due and accrued approximates carrying value, and the fair value measurements were classified as Level 1.

Net Financial Guaranty Insurance Contracts

The fair value of net financial guaranty insurance contracts represents the Company's estimate of the cost to Build America to completely transfer its insurance obligations to another financial guarantor under current market conditions. Theoretically, this amount should be the same amount that another financial guarantor would hypothetically charge in the market place to provide the same protection as of the balance sheet date. The cost to transfer these insurance obligations is based on pricing assumptions observed in the financial guaranty market and includes adjustments to the carrying value of unearned premium reserves, member surplus contributions and ceding commissions. The significant inputs are not observable. The Company accordingly classified this fair value measurement as Level 3.

(5) The Company did not hold any derivative assets or liabilities as of September 30, 2022 or December 31, 2021.

- B. The fair values of the Company's financial instruments are reflected in the table in footnote 20(C).
- C. The admitted assets, fair values and related level classification within the fair value hierarchy of the Company's financial instruments was as follows:

| 5. | Expected future premiums - September 30, 2022 | \$ 8,584,708 |

- (2) The following disclosures are for non-installment financial guaranty insurance contracts in force as of September 30, 2022:
 - a. Accelerated net earned premiums for non-installment contracts were \$1,064,537 for the nine months ended September 30, 2022. These accelerations were the result of insured bonds refunding earlier than the initial debt service scheduled at the policy date.
 - b. The table below summarizes future expected earned premium revenue, net of reinsurance, on non-installment financial guaranty contracts as of September 30, 2022:

- (3) The Company did not have any claim liabilities for financial guaranty insurance contracts inforce as of September 30, 2022 or December 31, 2021.
- (4) Insured obligations are monitored periodically with the objective of identifying emerging trends, updating the external and internal ratings and surveillance categories and avoiding or minimizing losses. The Company classifies each credit in its insured portfolio using the following surveillance categories:

<u>I – Performing – Standard Oversight</u> Credit is performing well. No losses are expected.

II - Performing - Enhanced Oversight

Credit experiencing financial, legal, or administrative problems, causing overall credit quality deterioration or a breach of one or more covenants or triggers. Issuers in this category are, to the extent possible, taking all necessary remedial actions. For some issuers, factors outside of their control are the cause, at least in part, of the deterioration in their credit profile. Issuers in this category are more closely monitored by Surveillance. Despite the current credit difficulties, BAM does not expect any interruption of debt service payments and no losses are expected.

III - Watchlist - Deteriorated

Credit experiencing financial, legal, or administrative problems, causing overall credit quality deterioration or a breach of one or more covenants or triggers, which if not corrected could lead to a loss on the policy. Issuers in this category are not taking conclusive remedial action or are unable to do so due to external factors, requiring Surveillance to employ enhanced surveillance and loss mitigation procedures. This may include the development of a remediation plan in consultation with internal and/or external attorneys, and/or outside consultants. The objectives of any remediation plan would be to address the problems the issuer is facing and any external factors impacting the credit, as well as ensuring that creditor's rights are enforced and curing any breaches that may have occurred with respect to any credit triggers or covenants. BAM may work with other insurers, bondholders, and/or interested parties on remediation efforts, as applicable. Probability of a loss is remote.

IV – Watchlist – Distressed

A loss is expected or losses have been paid and have not been recovered or are not recoverable. Surveillance is employing enhanced surveillance and loss mitigation procedures, and may include a remediation plan developed in consultation internal and/or external attorneys, and/or outside consultants. Probability of a loss is elevated.

All of the Company's credits are deemed Performing and have been assigned to either category "I – Performing - Standard Oversight" or "II - Performing - Enhanced Oversight."

B. The Company has no gross claim liabilities or potential recoveries as of September 30, 2022 or December 31, 2021.
